

Result Unknown

- Carter had 13 balloons. Caleb had 18 balloons. How many did they have altogether?

$$13 + 18 = x$$

- Tait had 32 balloons. 18 of them flew away. How many are left?

$$32 - 18 = x$$

Change Unknown

- Madison had 27 balloons. Myli gave her some more. Now she has 40 balloons. How many did Myli give her?

$$27 + x = 40$$

- Benjamin has 25 balloons. Mateo has 16 balloons. How many fewer balloons does Mateo have than Benjamin?

$$25 - x = 16$$

Start Unknown

- Rylee had some balloons. Ian gave him 19 more balloons. Now Rylee has 31 balloons. How many balloons did he have to start?

$$x + 19 = 31$$

- Jaden M. brought some balloons to a party. He gave 12 balloons to Jaden W. Now he has 17 balloons. How many did he have at the beginning of the party?

$$x - 12 = 17$$
